PETITE HOME CO.

# Seven nights

Week of _____

Shade the hours baby slept. Tick a wake. A pattern shows up by night four.

night hours, 7 pm to 7 am

Notes on the week (teething, a cold, travel, a new routine):

# Wake windows and bedtime

Typical ranges, not rules. Your baby's own pattern on the log beats any chart.

| AGE | AWAKE BETWEEN SLEEPS | NAPS A DAY |
|---|---|---|
| **0 to 1 month** | 45 to 60 min | 4 to 6 naps |
| **1 to 2 months** | 45 to 75 min | 4 to 5 naps |
| **3 months** | 60 to 90 min | 3 to 4 naps |
| **4 to 5 months** | 90 min to 2 h | 3 to 4 naps |
| **6 to 7 months** | 2 to 3 h | 2 to 3 naps |
| **8 to 10 months** | 2.5 to 3.5 h | 2 naps |
| **11 to 12 months** | 3 to 4 h | 1 to 2 naps |

## The bedtime routine

Same order, same words, every night. Twenty to thirty minutes is plenty. Tick what's in yours and write the time.

- ☐ Last feed _____
- ☐ Bath _____
- ☐ Pajamas and a clean diaper _____
- ☐ Dim the lights _____
- ☐ A book or a song _____
- ☐ The same goodnight words _____
- ☐ Into the crib awake _____

**Our routine, in order**

_____

_____

_____

_____

_____

_____

Safe sleep, every sleep: on their back, on a flat firm surface of their own, nothing else in the crib. Room-sharing without bed-sharing for the first six months. (American Academy of Pediatrics)

*The app keeps the kids' doctor, meds and allergies in one place, and shares them with whoever has baby tonight.*
